

INDEX OF MAGAZINE LUBRICATION

1950 THROUGH 1959

The following index of the last 120 issues is furnished primarily as a research convenience. The full title and date of each issue is printed in **heavy bold lettering**; from two to twelve additional cross-indexed references are given in standard type. The ten annual issues of a given month are also grouped under the name of that month.

Copies of past issues are readily available during the month after issue, decreasingly so up to two years and only occasionally thereafter. Address requests to Mr. C. R. Frohlin, Texaco Inc., 135 East 42nd Street, New York 17, New York.

A

Abrasives and Wear	Feb. 57
Additives with a Purpose	Mar. 57
Additives, effect on wear	Dec. 56
Additives, gear oil	Apr. 51
Addressograph	Dec. 59
AGMA gear failure types	Apr. 51, June 54
AGMA Specifications,	
industrial gear lubricants	Apr. 55
Agricultural equipment	Feb. 55
Air compressors	Jan. 54
Air conditioning machinery	July 55
Air pumps, locomotive	Feb. 52
Air tools	Sep. 57
Air-borne lubrication	Nov. 57
Aircraft Engine Oils	Oct. 51
Aircraft Engine Oil Systems	May 51
Aircraft gas turbine	Apr. 54
Aircraft Turbine Lubrication	Mar. 59
Allison 501-D13 Prop-jet	Mar. 59
Aluminum rolling	July 59
Analysis of Deposits	Jan. 59
Analysis, microchemical	Jan. 57
Analysis, grease	Jan. 56
Analysis, lubricating oil	Jan. 55
Analysis, petroleum	Jan. 58, Mar. 58, Oct. 59
Aniline point	Oct. 59
Application devices, grease	Sep. 50
Application of industrial lubricants	May 55
Application of Radioactive Tracers	
in the Petroleum Industry	Dec. 55
April 1950 issue: "Steam Power Plant Auxiliaries"	
April 1951 issue: "Gear Oil Additives"	
April 1952 issue: "The Aviation Industry"	
April 1953 issue: "Lubrication of Oil Field Machinery"	
April 1954 issue: "Synthetic Oils for Aircraft Gas Turbine Lubrication"	
April 1955 issue: "Lubricants—Specifications and Classification"	
April 1956 issue: "Cutting Fluids"	
April 1957 issue: "Disposal of Spent Soluble Oil Emulsions"	
April 1958 issue: "Paper Mill Lubrication"	
April 1959 issue: "Evaluating Automatic Transmission Fluids"	Apr. 59
Assembly, heavy automotive vehicles	Aug. 51
August 1950 issue: "Lubrication of Glass Making Machinery"	

August 1951 issue: "The Heavy-Duty Automotive Vehicle Assembly Line"	
August 1952 issue: "The Modern Bus and Truck, Fuels and Lubricants, Part I"	
August 1953 issue: "Lubrication of Chain Drives"	
August 1954 issue: "Lubrication of Modern Printing Machinery"	
August 1955 issue: "Fretting and Fretting Corrosion"	
August 1956 issue: "Keep Hydraulic Oils Clean"	
August 1957 issue: "Automatic Grease Dispensing Equipment"	
August 1958 issue: "Ball and Roller Bearing Lubrication"	
August 1959 issue: "Railroad Car"	
Journal Plain Bearings	Aug. 59
Automatic Grease Dispensing Equipment	Aug. 57
Automatic Screw Machines	Sep. 53
Automotive Engine Bearings	May 53
Automatic transmission fluids	Apr. 59
Automobiles, foreign	Feb. 59
Auxiliaries, steam power	Apr. 50
Aviation Industry	Apr. 52

B

Ball and Roller Bearing Lubrication	Aug. 58
Bearings, automotive engine	Sep. 52
	May 53
Bearings, automotive wheel	Mar. 50
Bearings, ball at high speeds	Dec. 51
Bearings, electric motor	Jan. 50
Bearings, fretting corrosion	Aug. 55
Bearings, industrial	Oct. 54
Bearings, large diesel and	
dual fuel engines	Nov. 52
Bearings, porous	Mar. 52
Bearings, railroad journal	Feb. 52, Dec. 54, Aug. 59
Blast furnace	Oct. 58
Brass rolling	July 59
Bus, automotive	Mar. 50, Aug. 52, Sep. 52

C

Camera, photoengraving	Dec. 59
Cars, European	Nov. 58, Feb. 59
Cars, passenger	Feb. 58
Cement Mill Lubrication	Oct. 57
Central Air-Borne Lubrication Syst.ms	Nov. 57

Chain drives	Aug. 53
Chain saws	May 59
Charts, viscosity conversion	May 50
Chassis lubrication, automotive	Sep. 52
Chevrolet Powerglide Transmission	Nov. 50
Chip formation, metal cutting	July 52
Chrysler Power Flite transmission	Nov. 54
Circulating Oils	Sep. 56
Circulating Oils, paper machine	Mar. 53
Circulating Oils, purification	Mar. 54
Circulating Oils, rolling mill	Oct. 52
Circulating Oils, steam turbine	June 52
Classification, lubricants	Apr. 52
Cobalt 60 radiation source	Sep. 59
Color printing	Dec. 59
Compressors, air ride	Apr. 59
Compressors, air and gas	Jan. 54
Compressors, refrigeration	Jan. 51, Jan. 54
Construction equipment	Mar. 56
Converter, Chrysler torque	Nov. 54
Copper rolling	July 59
Corrosion, plain engine bearings	Jan. 52, Nov. 52
"	May, 53 Oct. 54
Corrosion, fretting	Aug. 55
Corrosion, fuel sulphur	Dec. 55
Corrosion, piston ring	Nov. 52
Couplings, flexible	July 53
Crude oil selection	Dec. 52
Crushing rock	Oct. 49
Cutting Fluids	Apr. 56
Cutting oils	July 52, July 59
Cutting oils, transparent	July 51
Cycling tests, auto transmission	Apr. 59

Deposits, analysis of	Jan. 59
Dermatitis	July 51, Sep. 53
Detergency, engine oil	Jan. 52
Developments in Bus and Truck Lubrication	Mar. 50
Development of a New Motor Oil	Dec. 58
Dewaxing lubricating oil	Dec. 52
Dielectric strength, oil	Jan. 51, Oct. 59
Diesel fuel, automotive	Aug. 52, Sep. 52
Diesels, low speed	May 58
Diesel locomotives	Feb. 52, Nov. 55
Digger, post hole	May 59
Disposal of Spent Soluble Oil Emulsions	Apr. 57
Drawing	July 59
Drilling, oil well	Apr. 53
Drives, chain	Aug. 53
Drums, reconditioning	Sep. 55
Dual-fuel engines	July 50

E

Electric Motor Lubrication	Jan. 50
Electric Power — Steam Turbines Lubrication	June 52
Electron accelerator	Sep. 59
Electron microscopy	Dec. 50, Dec. 53
Electrotype	Dec. 59
Emulsions, soluble oil	July 54, Apr. 57
Engines, aircraft reciprocating	May 51, Oct. 51, Apr. 52
Engines, diesel and dual fuel	Nov. 52
Engines, European car	Nov. 58
Engines, free piston	Sep. 58
Engines, gas and dual fuel	July 50
Engines, inboard marine	June 59
Engines, oils for	Oct. 55
Engine Oil Pressure	Mar. 51
Engines, outboard marine	Jan. 53, June 58
Engines, principles of 2-cycle gasoline	Jan. 58

February 1954 issue: "Rubber Processing"	
February 1955 issue: "New Developments in Farm Machinery"	
February 1956 issue: "The Hydra-Matic, 1939 thru 1956"	
February 1957 issue: "Abrasives and Wear"	
February 1958 issue: "Passenger Car Trends Affecting Fuels and Lubricants"	
February 1959 issue: European Cars, Part II	
Filters and Purifiers for Oil Circulating Systems	Mar. 54
Fissioning, nuclear	Sep. 59
Flexible couplings	July 53

LUBRICATION

Fluids, automatic transmission	Apr. 59
Fluid Couplings and Torque Converters for Industrial Equipment	Feb. 50
Fluids, cutting	Apr. 56
Fluid Drive, Chrysler	Nov. 54
Folding machine	Dec. 59
Ford-Mercury automatic transmission	Nov. 51
Foreign automobiles	Nov. 58, Feb. 59
Forging	July 59
Fork lift trucks	June 53
Four cycle engines	May 59
Free Piston Engine Lubrication	Sep. 58
Fretting and Fretting Corrosion	Aug. 55
Fuels, aviation	Apr. 52
Fuel, LPG engine	Nov. 56
Fuel, railroad diesel	Nov. 55
Fuel, outboard motor	June 58
Fundamentals of Wear	Dec. 56

G

Gas, liquefied petroleum	Nov. 56
Gas and Dual-Fuel Engine Lubrication	July 50
Gasifiers, free piston	Sep. 58
Gas turbines, aircraft	Mar. 59
Gas-turbine, free-piston units	Sep. 58
Gasoline, automotive	Aug. 52, Sep. 52
Gear failures, AGMA patterns	Apr. 51
Gears, heavy duty	June 54
Gears, hypoid	Mar. 50
Gear lubricants, automotive	Sep. 52
Gear Oil Additives	Apr. 51
Gear types	Apr. 51
General Electric CJ-805 turbojet	Mar. 59
General Purpose Greases	Oct. 56
Glass making machinery	Aug. 50
Greases	Dec. 52
Grease Analysis	Jan. 56
Grease Application Devices	Sep. 50
Grease, aviation	Apr. 52
Grease, dispensing	Aug. 57
Grease fibers, electron microscope	Dec. 53
Grease, general purpose	Oct. 56
Grease Lubrication at High Speeds	Dec. 51
Grease research	Dec. 50
Grease specifications, military	Nov. 59
Greases, synthetic	Nov. 59
Grinding fluids	July 59

Some Recent Concepts of Machinability	July	Transmission, Studebaker automatic	June	51
Specifications, synthetic grease	Nov.	Transmission lubricants	Sep.	52
Spectroscopy, emission	Jan.	Transparent Cutting Oils	July	51
Specifications, lubricants	Apr.	Trends in Lubrication of Large Low-Speed Diesels	May	58
Spectroscopy, mass	Jan.	Trimmer, paper	Dec.	59
Speed, effect on grease lubrication	Dec.	Truck assembly line	Aug.	51
Squawk Tests	Apr.	Truck, automotive	Aug. 52,	52
Steam locomotives	Feb.	Truck, industrial	June	53
Steam Power Plant Auxiliaries	Apr.	Truck, lubrication	Mar.	50
Steam turbines	June	Turbines, aircraft	Apr.	52
Steel, hardening and tempering	Sep.	Turbines, aircraft gas	Mar.	59
Steel Mill Lubrication Problems	Oct.	Turbines, steam	June	52
Steel Mill Lubrication	Oct.	Turbulence	June	50
Steel rolling	July	Two-cycle engines	May	59
Steering, hydraulic power	Feb.	Type A fluids	Apr.	59
Stitcher, magazine	Dec.	Type, printing	Dec.	59
Stokers, coal	Apr.			
Storage and Handling of Lubricants	Sep.	U		
Streamline flow	May	Universal joints, automotive	Sep.	52
Studebaker automatic transmission	June			
Suffix A, Type A fluids	Apr.	V		
Sulfur	Dec.	Valve lifters, hydraulic	May	54
Synthetic Lubricants	Nov.	Van deGraaff proton generator	Sep.	59
Synthetic Lubricants	Mar.	Vehicle assembly line	Aug.	51
Systems, aircraft reciprocating engine lubrication	May 51,	Viscosimeters	May	50
Systems, automotive engine lubrication	Oct. 51	Viscosity	May	50
Synthetic oils	Dec.	Viscosity	June	50
Synthetic Oils for Aircraft Gas Turbine Lubrication	Apr.	Viscosity blending chart	June	50
		Viscosity effect on engine oil pressure	Mar.	51
		Viscosity index	June	50
T		W		
Tappets, valve	May	WADC deposition tester	Mar.	59
Temperature effect on viscosity	June	Wear	Dec. 55,	57
Temperature, hydraulic operation at low	Oct.	Wear, engine	Jan. 52,	52
Tests, lubricant	Oct.	Wear, fundamentals	Sep. 52,	55
Tests, significance of grease	Jan. 56,	Wear, hydraulic vane pumps	Dec.	56
Textile industry	May 52,	Wear, large engine	July	56
The Aviation Industry	Apr.	Wheel bearings, automotive	Nov. 52,	58
The Electron Microscope in the Petroleum Industry	Dec.	Wicking, rail journal bearings	Sep.	52
The Ford-Mercury Automatic Transmission	Nov.		Aug.	59
The Hardening and Tempering of Steel — Conventional and Hot Oil Quenching	Sep.	X		
	51	X-Ray diffraction and fluorescence	Jan.	58
